SCHEDULE OF EVENTS:

Tuesday, September 15 LM Qualifying Starts At 4:30

Tuesday night will include a complete Late Model Challenge Series event plus an optional practice night for all classes. Late Model qualifying will begin at 4:30 p.m. and practice session one will begin at 5:00. Heats races and subsequent practice sessions will alternate throughout the evening. Late Models will receive national points Tuesday night for the Challenge Series event.

WISSOTA 100 event rule: only one car per driver per class is allowed.

Wednesday, September 16 Racing Starts At 5:00

Street Stocks, Midwest Mods, Super Stocks and Modifieds will run their first round of heat races (8 laps). Line ups will be by draw as you register; a randomly chosen number 1 pill will be drawn at the pit meeting. Late Models will run full Challenge Series event, beginning with qualifying at 4:30 p.m., 10 lap heat races and 40 lap feature. The top 8 finishers in the Late Model feature will transfer straight up to the inside row of Saturday night's Championship Feature. For the other classes, passing points will determine if you make it to the night's Qualifying Feature – the top 24 drivers in passing points from heats will start straight up in the Qualifying Feature. All Qualifying Features will be 15 laps in length with the top 8 finishers transferring straight up to the inside row of the Championship Feature on Saturday night. A driver may choose to give up his/her earned feature position from Wednesday and try to improve it on Thursday.

Thursday, September 17 Racing Starts At 5:00

Street Stocks, Midwest Mods, Super Stocks, Modifieds and Late Models will run their second round of heat races. All heat races will be 8 laps in length. A randomly chosen new number 1 pill will be drawn at the pit meeting. Line ups will be from your Wednesday night draw (new drivers will be allowed to draw). Passing points will determine if you make it to the night's Qualifying Feature – the top 24 drivers in passing points from heats will start straight up in the Qualifying Feature. All Qualifying Features will be 15 laps in length with the top 8 finishers transferring straight up to the outside row of the Championship Feature on Saturday night. A driver may choose to give up his/her earned feature position from Thursday and try to improve it on Friday.

Friday, September 18 Racing Starts At 5:00

Street Stocks, Midwest Mods, Super Stocks, Modifieds and Late Models will run their third round of heat races. All heat races will be 8 laps in length. A randomly chosen new number 1 pill will be drawn at the pit meeting. Line ups will be from your Wednesday night draw (new drivers will be allowed to draw). Passing points will determine if you make it to the night's Qualifying Feature – the top 24 drivers in passing points from heats will start straight up in the Qualifying Feature. All Qualifying Features will be 15 laps in length with the top 8 finishers transferring straight up to the middle row of the Championship Feature on Saturday night.

Saturday, September 19 Racing Starts At 4:00

Saturday will include final qualifying, then all five Championship Feature events. There will be one or more Last Chance Races as needed in all five classes. The number of LCR races will depend upon the number of competitors who stay through Saturday to attempt to qualify for the Championship Features. The number of qualifiers from each LCR will depend upon how many LCRs there are in that class. Finally, the top three drivers in overall passing points accumulated over the three nights will also earn starting spots in the Championship Feature. There will be a traditional Parade of Champions and all five Championship Features to close out the event. Feature laps will be: Late Models (50), Modifieds (40), Super Stocks (40), Midwest Mods (35) and Street Stocks (30).

2026 Speedway Motors WISSOTA 100 Procedures

These procedures will be followed by all participants as well as officials.

1. All drivers are responsible for registering their cars and drawing for a position at the sign-in table. Drivers may only register one car per night per class. Heat races will be lined up by pill draw.

2. Anyone under 18 must have a release form signed by their parents.

3. All decisions of WISSOTA/TRACK officials are final!

4. No alcoholic beverages allowed in the pits until the entire evening's program for all divisions is complete. If a driver or pit crew member is caught drinking, they will lose all money, points and positions accumulated. If you go to the grandstand and consume alcohol, you will not be allowed back in the pits. Drivers are not allowed to smoke while in their cars or on the race track surface. No drugs allowed at any time before, during or after the event. WISSOTA officials reserve the right to request a random drug/alcohol test.

5. Drivers must wear a helmet, safety belts, racing suit, gloves, shoes and all other required safety gear when in a race car (including

warm-ups and hot laps). It is highly recommended that participants wear a HANS or similar devices whenever in the race car.

6. Line up your car in the staging area prior to your respective race. Know when you are racing and ready. Multiple races will be lined up together to enable a fast-moving show. Be respectful of line-up officials and be sure not to block any gates or roads. Remain near your car in the event we need it moved. If your race comes onto the race track without you and you are late, you will be relegated to the tail and receive no passing points if passing points are used.

7. If you enter the pit area, you must remain in the pits for the remainder of the race. All work must be done in the designated work area only.

8. WISSOTA 100 passing points chart will be used. All cars will accumulate passing and finishing points in their heat races. Formula is plus 5 points for each position gained. Minus 1.5 points for each position lost plus the points for that position. Start in 5th place and finish in 1st place 120 points, start in 1st place drop to 5th place 66 points. The top 24 drivers in total passing points will trans-

fer to that night's qualifying feature. The ties will be broken by the lowest pill number drawn that day. All the others will be done for the night. This does not apply to the Late Models on Tuesday or Wednesday night.

9. Drivers will draw a number on the first night that they compete. Drivers will use that number on each of the subsequent nights. A new #1 pill will be randomly drawn at the pit meeting each day to set the heat race line-ups. No number will be drawn after the set cut-off time. Any driver failing to draw before cut-off time will be placed at the rear of a heat race and only receive finishing points (no passing points). Late Models will draw both Tuesday and Wednesday at the Challenge Series trailer and again Thursday at the event command center for the rest of the weekend.

Last Chance lineups will be generated after the Friday night program. All drivers in total weekend passing points from the previous three nights who have not yet qualified will be lined up by points into their respective Last Chance Race by total points accumulated.

10. Drivers finishing in the top 8 in their respective qualifying feature will have the option to take that spot for

Saturday's championship feature or forfeit the spot to try to better their starting position and/or race for more national points the following night. Drivers must reveal their intention before leaving the tech area after their qualifying feature each night. The decision will be final. If a driver forfeits his or her position, the next finishing driver will move up into that transfer position. This does not apply to the Late Model Drivers on Tuesday or Wednesday night.

11. When the blue/orange flag is used, hold your line. It is the leader's responsibility to safely go around cars being put a lap down. If the slower car is holding their line and the leader initiates contact with a slower car and a caution is the result of the contact, the leader will be charged with that caution.

12. In a multi-car incident which causes a yellow flag, the car causing the incident will be put to the back. If you cause a stoppage twice in the same race you will be sent to the pits. (Includes the first lap). This does not apply to the Late Models on Tuesday or Wednesday night.

Any driver who intentionally stops a race will be put to the rear of the field.

13. Once a car is lapped, that car will always remain

lapped until that car re-passes the leader under green flag conditions. On a restart, all lapped cars will be put to the back of the field. The lineup will be determined by the position on the previous completed lap. This does not apply to the Late Model on Tuesday and Wednesday night.

14. Starting Procedures and Jump Start Penalties: You must stay in line until the green flag is shown on all starts. All starts will use a start zone in turn four. When the leader gets to the start zone, the green flag will be shown, drivers may race. On original starts, if a driver jumps the start, the caution will be shown and that driver will be penalized for two positions per car jumped and the race will be restarted. On Delaware double file restarts, the leader will fire first at any point within the start zone. If the leader does not fire before the end of the start zone, the race will be started by the flagman at the end of the zone. Once the leader fires, all other competitors may go. If you jump a restart, for every position jumped, the caution will be shown, and you will be docked two positions per car you jumped. On all restarts, the leader will still have the front row to themselves, and the second-place driver will be able to

choose inside or outside like normal, from there everyone will simply line up opposite the driver in front of them. This means, if second chooses out, then all even numbered running positions go out. The basic things to remember is - the fourth-place driver does not automatically go to the inside for this event - they simply go opposite where the third-place driver goes and everyone follow suit behind. There will be no brake checking or changing of pace coming to the start zone for starts. If a driver brake checks and/or dramatically changes his/her pace to affect the start, he/she will be put directly to the tail. No warning.

15. Work Area procedures: You may work on your car in the designated work area on Saturday feature races only. If you have a flat tire or other work that needs to be done to your car, proceed to the work area, complete the work and you may return to the race at the tail of the field. You may only return to the race if the race has not yet been re-started and if you are not more than one lap down. No entering track after the green flag is displayed. This does not apply to the Late Models on Tuesday or Wednesday night.

2026 Speedway Motors WISSOTA 100 Procedures

CONTINUED FROM PAGE 27

16. No driver is allowed to get out of their race car on the racing surface for any reason unless the track or safety personnel instruct you to. If a driver gets out of their race car for any reason other than being instructed to, they will be disqualified, fined \$500 and suspended from all WISSOTA competition for 14 days from the date of the incident. Similarly, no driver, crew member or team representative is allowed in the control tower unless summoned by WISSOTA personnel. Disqualification and fines may apply if this is not adhered to.

17. If a driver misses his or her heat race, they will not be allowed to enter another heat for that day's qualifying.

18. In all heat races, the top-five finishers must go directly to the scale and tech area. Top 15 finishers in each qualifying feature and feature must go directly to the scale and tech area. Drivers will have two attempts to scale legally. You must make weight on the second attempt or be disqualified. For the Tuesday and Wednesday Late Model event, Challenge Series scale rules apply. Absolutely NO crew member is allowed by the car during scaling. If a crew member is found to be stepping on the scale or pressing on any portion of the car to try to help

you make weight, you will be disqualified. You may weigh the car before races.

19. Anyone speeding or being unsafe with any motorized vehicle will be removed from the pit area. All ATVs must be registered with WISSOTA and have appropriate identification. No one under the age of 16 is allowed to drive ATVs.

20. Once a car is registered for the event, that car may not be raced by another driver.

21. The event will utilize the blend rule. If a car spins and the caution is prematurely thrown while the driver is trying to keep going, that driver will be "blended" back into the lineup where he/she was at the time the caution was thrown.

22. Whatever car a driver qualifies for the Saturday night feature must be raced in the Saturday night feature. Drivers are allowed to compete in different cars each night as long as they are all pre-teched.

23. It is the driver's responsibility to know and understand all the rules and procedures. As always, the driver is responsible for all actions of their pit crew, family, and friends.

24. Last-lap incidents: if the leader of the race has not taken the checkered flag and there is a caution, the race will

be restarted and finished with a green/white one-lap race to the finish. If the leader has taken the checkered flag and there is a crash, anyone affected by the crash will be scored as they were running on the white flag lap.

Example: eighth-place car spins out the seventh-place car on the final lap, the top six would be scored as they cross the finish line. The offender (eighth-place car) would be put in the last position of the remaining cars and all other cars would be scored as they crossed on the white flag lap.

25. Double file restarts will occur 100% of the time in all races but may be adjusted at the discretion of WISSOTA officials.

26. Cars qualifying for the A-feature will qualify straight

up from the qualifying features. Wednesday night qualifiers will make up the inside row. Thursday night qualifiers will make up the outside row. Friday night qualifiers will make up the middle row.

27. Any driver who makes contact with another car during a caution or after the checkered flag, in an attempt to show displeasure, will be disqualified from the event. Repeating offenses during the same event may result in additional penalties at the discretion of officials.

28. If a car scratches or drops out on the first lap of ANY race, the lineup will be realigned by crisscrossing.

29. RACEceivers and transponders are mandatory for all competitors throughout the

event. Non-working RACEceivers and/or transponders may result in not being scored. If you own a LITEceiver they will be used during this event. This is a must have for this event. This is used for the safety of the driver and track officials.

29. Saturday night's Feature laps will be as follows:

Midwest Modifieds: 35 laps
Street Stocks: 30 laps
Super Stocks: 40 laps
Modifieds: 40 laps
Late Models: 50 laps

THE NUMBER OF LAPS RUN IS SUBJECT TO CHANGE BY WISSOTA OFFICIALS.

30. Saturday night's features will contain a maximum of 33 cars and the field will start the race in a three-wide alignment. Subsequent restarts

will be double file. Feature qualifiers include the top eight finishers from Wednesday, Thursday, Friday, six qualifiers from last-chance races, the top three drivers in overall week passing points that have not qualified (must race all the nights).

31. Track surface will be farmed regularly each night, on preset schedule unless conditions warrant a change in the schedule to be determined by WISSOTA officials.

32. All entry fees are "CAR ONLY." Everyone entering the pit area will be required to pay the daily/multi day pit pass fee. All drivers must have a full WISSOTA license to compete; NO temporary licenses will be allowed/sold.

Entry Fees (paid in advance) are as follows:

Streets \$40
MWM \$40
Supers \$40
Modifieds \$50
Late Models \$60

Entry Fees (paid at the event) are as follows:

Streets \$60
MWM \$60
Supers \$60

HIGHLIGHTS FROM LAST YEAR

Thell, Smith & Jenson hoist MPH Invitational hardware

By Meghan Diemel
ATD Editor

SAUK RAPIDS, MN (September 6) - The Speedway Motors MPH Invitational for WISSOTA Pure Stocks, Hornets and Mod Fours got underway Saturday night at Granite City Motor Park. When the final checkered flag waved, Keith Thell added another big title to his pile of career accolades in the Mod Fours, while Jake Smith topped the Pure Stock action. Anthony Jenson, in a heated battle for WISSOTA national points, took home the hardware in the Hornet feature.

In the WISSOTA Pure Stocks, Josh Berg and Smith led the field to the green flag. Smith was the early leader, pulling away from the field quickly as Austin Carlson moved into second, Berg was third, and Mason Smith and Dylan Helget held early top-five spots.

Jake Smith continued to add to his lead out front of the 25-lapper, with Carlson a little less than a second and a half behind. Berg held third, Mason Smith was fourth and Eric Crosby supplanted Helget for fifth with six laps scored.

Out front Jake Smith began to work his way through backmarkers before a caution fell for debris on the frontstretch.

Back under green, Jake Smith held command ahead of Carlson and Berg, while Mason Smith was passed by Crosby for fourth.

As the field fell in line, Carlson was all over the bumper of Smith for the lead with 10 laps in the books. Berg was under heavy pressure from Crosby for third, as George Richards appeared in the top five. Richards moved into fourth, with top-five runner Mason Smith leaving the track with mechanical issues with 13 laps to go. Three consecutive cautions kept the field at a standstill. At the halfway point Jake Smith continued to hold the lead ahead of Carlson, Berg, Richards and Crosby. Carlson continued to work the bumper of Smith out front, as Crosby pulled off the track into the infield, boosting Austin Fencel into the top five.

With the lead in contention between Smith and Carlson, Berg and Richards fought for third. Smith hung on in the remaining laps to pick up the MPH victory, ahead of Carlson, Josh Berg, Richards and Alex Berg in the top five.

Tyler Larson and Rowan Tramm led the field of WISSOTA Mod Fours to the green flag, with Tramm the early leader by the slightest of margins. Thell powered into second in turns three and four past Larson, while Lar-

son was under heavy pressure from Blake Hawker and Dustin Holtquist in the top five.

Tramm and Thell were side by side with four laps complete, and continued their side-by-side duel for a couple laps before Thell gained the lead down the backstretch with five laps scored - but a yellow for debris negated the move.

Back under green, Tramm couldn't hold off the highside charge of Thell, as Thell again took the lead. Larson was third, but Holtquist was right alongside the No. 7L for the spot. Hawker was fifth with six laps scored. Hawker moved into third the next go-round, with the caution re-appearing a lap later.

Thell moved away from the field on the following restart, but another caution regrouped the field for the fourth time in eight laps. Back under green, Tommy Pogones fell off the pace and dramatically slowed into turns three and four; the yellow fell but the call on the track was for debris on the frontstretch, and Pogones was given his spot back.

Thell pulled away once again when the race resumed, while Tramm was second ahead of Hawker and a side-by-side battle for fourth between Tyler Larson and Dustin Holtquist; Larson took the spot and moved by Hawker in the next turn for third. Hawker fought back for the spot, but settled into a contest for fourth with Holtquist. Another caution with 17 laps left on the board brought the field back together once again.

With the green back out over the field, Thell moved to a near 1-second lead out front, as Larson was second. Dustin Holtquist took third from Tramm and Pogones cracked the top five with 14 laps to go. A yellow fell three laps later for Brian Bruss spin.

Thell held command back under green, while Holtquist moved by Larson into second, Tramm was fourth and Bob Holtquist appeared in the top five. With five laps to go, Bob Holtquist spun by himself and another caution fell across the field.

As the field took the green once again, Thell shot out to a healthy lead ahead of Dustin Holtquist, with Larson in third. Jamie Flickinger moved into fourth while Tramm held fifth and the duo went back and forth for the spot with two to go. The field came to a halt yet again for a Gerald Nohner spin with two laps to go.

Thell survived the final two laps - and another two cautions - to grab another season's-end headlining victory, ahead of Larson, Dustin Holtquist, Flickinger

and Hawker in the top five.

Adam Throener and Nikota Larson led the field of WISSOTA Hornets to the green for their feature. Throener was the early leader ahead of a side-by-side battle for second between Larson and Anthony Jenson; Jenson grabbed the spot and immediately pressured Throener for the lead. Jenson took it in the next turn, with Larson moving by Throener into second. Nick Ruzich and William Lange were early top-five runners. Scott Erickson moved into fourth - ahead of Lange - on the next go around as Ruzich fell back to sixth. A caution fell with six laps complete for Ruzich, who lost power down the frontstretch.

Following the restart Jenson held the lead, as Throener regained second from Larson. Lange was fourth and Russell Kiker, Jr. moved into the top five with 17 laps left on the board. Another wreck, this time along the frontstretch, regrouped the field under yellow.

Jenson's gap on the field under green was nearly a second after the first lap, while Throener continued to lead Larson in second. Lange was fourth, and Kiker continued to hold fifth. Kiker took advantage of a three-wide bout with Larson and Lange for third, before Larson slowed with mechanical issues the next turn.

With 12 to go, the track was under green once more, with Jenson leading the way. Kiker grabbed second from Throener, but another yellow regrouped the field.

Jenson continued to lead with 10 laps to go following the restart, as Kiker held second ahead of a side-by-side battle for third between Throener and McKenna Folstad. Throener held off her efforts for several laps, as Folstad then fell back a bit and was off the pace with a tire leaving for greener pastures, and the field under yellow once again.

During the final six-lap sprint to the checkered flag, and one more caution, Jenson held strong out front for the MPH victory. Kiker was second, and Throener was third across the finish line. Post-tech, Throener was DQ'd for reasons not provided by press time, so Lange was elevated to a third-place finish. Twentieth-starter Adam VanDerostyne was fourth, and Josh Backstrom was fifth.

SUMMARY
WISSOTA Mod Fours:
Feature (30 Laps): 1. 00-Keith Thell[3]; 2. 7L-Tyler Larson[1]; 3. 5H-Dustin Holtquist[6]; 4. 16-Jamie Flickinger[9]; 5. 21-Blake Hawker[4]; 6. 5-Robert Holtquist[12]; 7. Becker finds victory lane at the 100 once again, with win in the Late Model feature

By Tony Steuck
All The Dirt! Racing News

FERGUS FALLS, MN (September 13) - Twenty years after Chad Becker earned his first WISSOTA 100 crown with a Western 100 win at Brown County Speedway, he dominated the 2025 version of the event at I-94 Speedway for his fourth-career WISSOTA 100 Late Model title.

Josh Zimpel jumped to the early lead of the 50-lap main event after starting on the pole in the three-wide start. Zimpel used the high groove, but starting on lap two, Becker ducked to his inside in the turns to provide constant pressure. Johnny Broking circled the track in third while Tyler Peterson and Cole Searing raced side by side for

fourth. Zimpel altered his line to the low groove on lap seven, but lost traction in turn two and spun to a stop for the race's first caution.

Becker inherited the lead for the restart with 44 laps remaining. The top three raced tight for the lead after the restart with Peterson and Broking providing the challenge. Broking had a great run out of turn two on lap eight and shot under Becker into turn three, but clipped his left front; Broking immediately slowed with rear suspension damage and brought out the caution. He was done for the event.

After a quick challenge from Peterson, Becker set sail after the restart, and Peterson and Searing continued their fight for second. Zach Johnson, Shane Sabraski and Kevin Burdick

sparked a battle for fourth, and Johnson and Burdick moved away in a side-by-side debate for the spot. The caution waved again with 10 laps recorded.

After the restart, Johnson joined Peterson and Searing to battle for second; Johnson used the low groove to take third from Peterson on lap 11. Becker pulled away, but three cars remained engaged in a battle for second. Searing secured the spot, and Sabraski moved in to challenge Burdick for fifth before the final caution with just 14 laps scored.

Johnson challenged Searing low for second when the race resumed, and grabbed the spot by lap 16. Burdick put pressure on Peterson for fourth, while Searing worked to reclaim second from Johnson on lap 20. Peterson

moved back in to challenge for third.

Becker had a 2-second lead by the halfway mark as he caught the tail of the field. Searing separated from Johnson, with Peterson and Burdick in the top five. Traffic was thicker for Becker a few laps later, and the race for fifth heated up when Sabraski, Cole Schill and Dave Mass closed in on Burdick, and they all caught Peterson in fourth.

Becker maintained — if not extended — his lead through traffic after lap 30, while Peterson worked low on Johnson for third, and five cars battled for fourth. Schill was fifth by lap 37.

Searing appeared to close the gap to Becker with 10 laps to go, but Becker had three lapped cars as a buffer to second place. Peterson and Johnson again fought for third on lap 41, and Schill held off Sabraski and Mass for fifth.

Searing chewed up more of the gap to the leader, but still had cars between himself and Becker. Searing pulled to within under a second on lap 43, but

almost caught the wall in turn two on lap 46 and gave up ground. Peterson finally grabbed third from Johnson with four laps to go, and Sabraski was into fifth and challenging for more.

Searing did not give up, and continued to push to the checkers; he cut Becker's lead in half over the final five laps, but came up just under a second shy. Peterson finished third ahead of Johnson and Sabraski. Schill was sixth ahead of Mass, Jayson Good, Jordan Tollakson and Mike Greseth in the top 10.

Seven drivers made the Championship Feature by virtue of the Last Chance Qualifier. Joel Bennett led the distance to punch his ticket to the show. Lee Grosz slipped by Cory Tammen early for second while Mike Stearns rallied from 10th to move into fourth by the checkers. Travis Budisalovich held on to finish fifth with Dustin Arthur sixth. Thomas Weisgram started 12th on the grid, but made some late moves to displace the sisters of Laela and Amelia Eisenschenk to score the final transfer.

AT THE 100

HIGHLIGHTS FROM LAST YEAR

Gierke adds WISSOTA's biggest crown jewel to his racing resume by winning Mod title

By Tony Steuck
All The Dirt! Racing News

FERGUS FALLS, MN (September 13) - It is hard to call 2025 a breakout year for Ryan Gierke, but the young driver continued his consistent upward trajectory and added the biggest jewel in the WISSOTA crown to his resume on Saturday night.

Brandon Dolman jumped to the initial lead from the outside row of the three-wide start in the 40-lap Modified feature. He set the early pace over Joseph Thomas, Gierke, Brandon Beckendorf and Landon Atkinson. Thomas put pressure on Dolman and the top two broke away from the rest of the pack on lap two. Atkinson looked inside of Beckendorf for fourth with Brady Gerdes and Shane Sabraski trailing that duo.

Dolman maintained the point in the high groove, and opened a little space by lap five while Gierke and Beckendorf reeled in Thomas. Beckendorf ducked under Gierke on lap 10, and the pair made a little contact under the flag stand, but Gierke held the position. They were side by side again on the next lap while Sabraski raced around the outside of Atkinson for fifth.

Thomas cut into Dolman's advantage as he worked by a slower machine on lap 12. The top four were close for the next few laps, and Thomas made his move for the lead with a slide job on lap 14. Gierke and Beckendorf immediately pressured for second, and Gierke stole the spot from Dolman on lap 15. Beckendorf continued to hound Dolman with Sabraski there as well; Beckendorf claimed third on lap 16 and Sabraski followed.

The top four remained tight at the head of the pack as they navigated thick traffic. Thomas had a slight miscue with a slower car on lap 20, and Gierke ducked to the inside

out of turn four. Thomas remained the leader while Sabraski looked to the inside of Beckendorf and stole third on lap 22. The leaders sliced through traffic, and Gierke got a strong run off turn two on lap 24. He cut under Thomas down the back chute and slid in front of him in corner four. Sabraski almost made it three wide at the line before Thomas slid in front of Gierke in turn two. They raced three wide out of the corner, but Gierke emerged as the leader as they entered turn three. Sabraski moved to second on the next lap, and kept the heat on Gierke in the low groove.

The top two powered away from the pack and left Thomas, Beckendorf and 12th-starter Dustin Bitzan to battle for third. Gierke made bold moves through traffic and opened a little gap over second before the only caution in the race with 11 laps remaining.

Sabraski challenged Gierke to the inside of the restart, and performed a slide job in turn two on the next lap, but Gierke reclaimed the lead down the back chute. Beckendorf moved into third and brought Bitzan and Bryce Sward with him by Thomas. Sabraski remained close for a few laps, while Bitzan and Beckendorf were side by side for third, and Sward looked to stick his nose between that pair.

Gierke started to open a lead with six laps to go, and Sward now challenged Bitzan to the outside for third. Gierke had more than a 1 second lead with three laps to go, and continued to open ground over Sabraski. With his remaining few revolutions around the high side of the speedway, Gierke raced to the biggest win of his career. Sabraski was a distant second with Bitzan third, Sward fourth and Beckendorf fifth. Johnny Broking, Thomas, Tyler Peterson, Atkinson and Tyler Kaeter rounded out the top 10.

Six drivers locked into the Championship Feature by virtue of the Last Chance Qualifier. Jody Bellefeuille led flag to flag for the victory, while Josh Thoennes grabbed second by lap three and held on for the runner-up finish. Blake Jegtvig fought off Zach Benson and Mike Stearns for third after Stearns cracked into the top five around lap 10 of 15. The battle for the final transfer came down to the checkered flag, where Brandon Mehrwerth held off the charges of Tyler Kintner and Jason Thoennes for the position.

SUMMARY
WISSOTA Modifieds:
Feature (40 Laps): 1. 26G-Ryan Gierke[1]; 2. 7A-Shane Sabraski[8]; 3. 10X-Dustin Bitzan[12]; 4. 6X-Bryce Sward[14]; 5. 5-Brandon Beckendorf[5]; 6. 45J-Johnny Broking[11]; 7. 6T-Joseph Thomas[2]; 8. 1TPO-Tyler Peterson[10]; 9. 18A-Landon Atkinson[4]; 10. 5K-Tyler Kaeter[13]; 11. 2J-Blake Jegtvig[27]; 12. 19-Lucas Rodin[20]; 13. 21X-Travis Saurer[7]; 14. 6-Dale Ames[16]; 15. 60-Dan Ebert[17]; 16. 51-Josh Thoennes[26]; 17. 11-Jody Bellefeuille[25]; 18. 2G-Brock Gronwold[31]; 19. 66-Jacob Knapper[24]; 20. 6SL-Seth Brede[32]; 21. 6*-Brian Haben[22]; 22. 5H-Brett Hoium[19]; 23. 24S-Mike Stearns[29]; 24. 15-Ryan Flaten[21]; 25. 99E-Blake Erickson[33]; 26. TUESDAY, WEDNESDAY, THURSDAY, FRIDAY, SATURDAY

SEPTEMBER 15, 16, 17, 18 & 19

All Your
Racin'
Friends Will
Be Here!

SCHEDULE OF EVENTS:

★ Tuesday September 15 LM Qualifying Starts At 4:30

Tuesday night will include a complete Late Model Challenge Series event plus an optional practice night for all classes. Late Model qualifying will begin at 4:30 p.m. and practice session one will begin at 5:00. Heats races and subsequent practice sessions will alternate throughout the evening. Late Models will receive national points Tuesday night for the Challenge Series event.

WISSOTA 100 event rule: only one car per driver per class is allowed.

★ Wednesday September 16 Racing Starts At 5:00

Street Stocks, Midwest Mods, Super Stocks and Modifieds will run their first round of heat races (8 laps). Line ups will be by draw as you register; a randomly chosen number 1 pill will be drawn at the pit meeting. Late Models will run full Challenge Series event, beginning with qualifying at 4:30 p.m., 10 lap heat races and 40 lap feature. The top 8 finishers in the Late Model feature will transfer straight up to the inside row of Saturday night's Championship Feature. For the other classes, passing points will determine if you make it to the night's Qualifying Feature – the top 24 drivers in passing points from heats will start straight up in the Qualifying Feature. All Qualifying Features will be 15 laps in length with the top 8 finishers transferring straight up to the inside row of the Championship Feature on Saturday night. A driver may choose to give up his/her earned feature position from Wednesday and try to improve it on Thursday.

★ Thursday September 17 Racing Starts At 5:00

Street Stocks, Midwest Mods, Super Stocks, Modifieds and Late Models will run their second round of heat races. All heat races will be 8 laps in length. A randomly chosen new number 1 pill will be drawn at the pit meeting. Line ups will be from your Wednesday night draw (new drivers will be allowed to draw). Passing points will determine if you make it to the night's Qualifying Feature – the top 24 drivers in passing points from heats will start straight up in the Qualifying Feature. All Qualifying Features will be 15 laps in length with the top 8 finishers transferring straight up to the outside row of the Championship Feature on Saturday night. A driver may choose to give up his/her earned feature position from Thursday and try to improve it on Friday.

★ Friday September 18 Racing Starts At 5:00

Street Stocks, Midwest Mods, Super Stocks, Modifieds and Late Models will run their third round of heat races. All heat races will be 8 laps in length. A randomly chosen new number 1 pill will be drawn at the pit meeting. Line ups will be from your Wednesday night draw (new drivers will be allowed to draw). Passing points will determine if you make it to the night's Qualifying Feature – the top 24 drivers in passing points from heats will start straight up in the Qualifying Feature. All Qualifying Features will be 15 laps in length with the top 8 finishers transferring straight up to the middle row of the Championship Feature on Saturday night.

★ Saturday September 19 Racing Starts At 4:00

Saturday will include final qualifying, then all five Championship Feature events. There will be one or more Last Chance Races as needed in all five classes. The number of LCR races will depend upon the number of competitors who stay through Saturday to attempt to qualify for the Championship Features. The number of qualifiers from each LCR will depend upon how many LCRs there are in that class. Finally, the top three drivers in overall passing points accumulated over the three nights will also earn starting spots in the Championship Feature. There will be a traditional Parade of Champions and all five Championship Features to close out the event. Feature laps will be: Late Models (50), Modifieds (40), Super Stocks (40), Midwest Mods (35) and Street Stocks (30).

Speedway Motors WISSOTA 100 Super Stock
Champion Shane Sabraski

Sabraski scores another 100 win in the WISSOTA Supers

By Tony Steuck
All The Dirt! Racing News

FERGUS FALLS, MN (September 13) - Shane Sabraski's 998th career victory was a big one: the WISSOTA 100 championship feature in the Super Stocks. Sabraski earned his fifth WISSOTA 100 title overall, and his first repeat in any division, after Saturday's run to the checkers.

Dylan Nelson, Dexton Koch and Curt Myers brought the field down the frontstretch and to the green flag in their 40-lap main event. Nelson powered to the lead out of turn two ahead of Koch, Myers, Sabraski and Jordan Henkemeyer. Koch looked to the outside of Nelson on lap two with Myers in close contention in the low groove. The pair raced door to door behind Nelson, and when Nelson slid high in turn four, Myers shot by for the top spot. The lap, however, was not scored when the yellow flag waved. Under the caution, Nelson forfeited the top spot to replace a flat tire on his No. 25.

Myers led the pack to the restart with only three laps recorded. Koch tested the outside of Myers while Sabraski used the inside line to pull even with Koch. Henkemeyer and Dustin Nelson ran door to door for fourth, while Sabraski and Koch continued to spar for second six laps into the event.

Myers opened a little breathing room at the front of the pack, and Sabraski secured second eight laps into the race. Dustin Nelson was comfortably in fourth and Rick Simpson challenged Henkemeyer for a spot in the top five.

Sabraski reeled in Myers with 10 laps scored and looked to the middle groove to try and roll around the leader. Sabraski briefly lost touch with the leader a few laps later as he searched for speed on the oval, but he still had a healthy margin over Koch. Dustin Nelson moved in to challenge Koch for third.

Myers encountered the slower car of Carson Miller, caught the tail end of his machine, and turned him around on the back chute to bring out the caution with 16 laps recorded. The restart attempt was unsuccessful after Dustin Nelson sat backward in turn one with a flat tire.

Sabraski looked to the outside of Myers again after the restart and had a run down the back chute, but Myers moved up the track and slammed the door shut. Sabraski had to get on the binders, but reloaded for another run. Henkemeyer looked under Koch for position before another caution for Simpson slow on the speedway.

Myers led the pack to the restart with 23 laps remaining and continued to use the low groove in the turns. Again Sabraski had a strong run off the middle of turn two, but Myers closed any opening down the back chute. Koch and Henkemeyer remained in order while Dylan Kromschroeder and Alex Myers battled for a spot in the top five.

Sabraski continued to have strong runs off the turns, but Myers shut down his momentum each time. Sabraski searched for a different route around the leader; he had his nose to the outside of Myers again down the back chute on lap 24, but again Myers slammed the door. Sabraski remained close, and Koch was not far behind, before a caution with 15 laps to go.

The top three broke away after the restart. Myers briefly had a gap over Sabraski, but Sabraski reeled him in once again by lap 32. Finally, Sabraski pulled even with Myers out of turn two and he nosed ahead down the back chute. Sabraski secured the spot into turn three and led the pack to complete lap 34. He stretched his lead to a half straightaway with two laps to go, but one final caution waved and set up a one-lap dash to the finish.

HIGHLIGHTS FROM LAST YEAR

Koehler gets it done in the Mid Mods for 100 Championship

By Tony Steuck
All The Dirt! Racing News

FERGUS FALLS, MN (September 13) - Nick Koehler spent much of the summer winning races in Wisconsin, but as the seasons changed and temperatures cooled, he migrated west to Minnesota to score the WISSOTA 100 victory at I-94 Speedway on Saturday night.

James Trantina grabbed the lead when the Midwest Modifieds rumbled three wide to the green flag in their 35-lap contest. Matt Schow settled into second ahead of Brennon Weight, while Blake Adams and Koehler battled early for fourth. Schow stayed close to Trantina and the top two broke away, with Trantina in the high groove and Schow in close contention down low. Weight had a gap over Koehler and Adams before the first caution fell with four laps scored.

Weight looked under Schow for second after the restart, and Koehler grabbed fourth from Adams, but Adams fought back and brought Lucas Rodin into the battle as well. The caution dropped again with seven laps scored.

Weight stole second after the restart, and looked to the inside of Trantina down the backchute, but Trantina edged away slightly over the next few laps. Koehler and Adams ganged up on Schow in the battle for third, and behind that trio, Rodin, Ryan Schow and Shane Howell contested the sixth position.

Trantina had a comfortable lead on lap 10, and Matt Schow had broken free from the battle for third a few laps later. Rodin challenged for a position in the top five in a battle with Adams.

Trantina had a slight hiccup on the cushion on lap 16 and Weight closed the distance. He threw a slide job on Trantina in turns three and four on lap 18, and they spent the next few corners trading slide jobs for the lead position. Weight finally secured the top spot on lap 20, while Matt Schow, Koehler and Rodin battled for third before the caution fell with 21 of 35 laps scored.

Trantina executed a slide job into turn one after the restart, but Weight regained the top spot. Trantina was then three wide with Schow and Koehler for second, and Koehler used the low groove to steal second out of corner four. The lap was scored before another caution with 13 laps to go.

Koehler used the low groove to gain the lead out of turn two, but the caution fell before a lap could be scored. On the next restart, Weight and Koehler raced for the lead, and Schow and Rodin were side by side into turns three and four, but contact sent Rodin toward the wall with Schow sideways. Trantina made contact with Schow, who bounced around like a pinball as the field barreled by; the calamity ended with Mario Berger, Howell and Tanner Bitzan piled up out of turn four.

Weight led the field to the restart, but Koehler used the low groove to snatch the lead out of turn four. Trantina challenged for second and Memphis Klassen shot to fourth before the caution fell again with 12 laps to go. The final caution fell after a spin on the restart.

Koehler slipped away after the restart while Weight and Trantina battled door to door for second. Klassen slapped the turn four wall,

forfeited his top five position and dropped out of the race. Adams regained fourth ahead of 26th-starter Reise Stenberg and 17th-starter Mike Nichols in a battle for fifth. Trantina secured second with eight laps to go, and Adams worked high on Weight in a battle for third.

Trantina used the high side of the speedway and tried to reel in the leader, but could not make serious cuts into the disadvantage. Adams still battled with Weight, and both drivers caught Trantina as he searched for speed in the closing laps. The three cars battled for second and Nichols ran alone in fifth with a big gap to sixth.

Koehler stayed glued to the low groove and raced to his first WISSOTA 100 title. Trantina held on for second with Adams third, Weight fourth and Nichols fifth. Stenberg, Ron Saurer, 25th-starter Matt Heinzerling, Justin Bjorklund

and Scott Tofte rounded out the top 10.

Seven drivers transferred out of the Last Chance Qualifier and earned a start in the Championship feature. Ryan Flaten led the distance for the win while Matt Heinzerling had to defend second from Reise Stenberg in the late going. Justin Bjorklund, Kyle Langland, Zach Benson and Tanner Bitzan ran spread out in the transfer positions until the last lap when Langland lost power in a cloud of smoke. Onyx Johnson was the beneficiary and earned the seventh and final transfer position.

SUMMARY

WISSOTA Midwest Mods:
Feature (35 Laps): 1. 13X-Nick Koehler[6]; 2. 19X-James Trantina III[3]; 3. 40D-Blake Adams[4]; 4. 28-Brennon Weight[2]; 5. 67-Mike Nichols[17]; 6. 87S-Reise Stenberg[26]; 7. 42-Ron Saurer[13]; 8. 22-Matt Heinzerling[25]; 9. 5C-Justin Bjorklund[27]; 10. 28X-Scott Tofte[18]; 11. 15F-Ryan Flaten[23]; 12. 21-Shane Howell[7]; 13. 73J-Onyx Johnson[30]; 14. F43-Zach Benson[28]; 15. 24TB-Taylor

Multi-time National & 100 Champion Johnson wins LCQ

CONTINUED FROM PAGE 34

Sabraski was unchallenged on the final lap, while Koch grabbed second from Curt Myers out of turn two. Kromschroeder and Alex Myers both raced to the outside of Curt Myers in the final turn, and Alex narrowly edged out Kromschroeder for the final podium position. Curt Myers fell to a fifth-place finish with Henkemeyer sixth, Kolby Kiehl seventh, Travis Scott eighth, 17th-starter Ryan Kostreba ninth and Denis Czech 10th.

Sabraski added this title to his double dip in the Modified and Midwest Modifieds during the

2006 Western 100 at Brown County Speedway, and the 2021 Super Stock and 2024 Late Model titles, both at I-94 Speedway.

The Super Stocks added six more starters to the big show from their Last Chance Qualifier. Trevor Nelson led early, but gave way to William Lund on lap two. Tim Johnson and Russell Kostreba battled for third after an early caution, with Shawn Fernkes and Brayden Hedtko following in the transfer positions.

After a pair of mid-race cautions, Johnson slid under Lund to lead lap eight, and Nelson picked off Lund for second a few laps later. Fernkes raced in fourth over

Hedtko, while Matt Sparby charged from 16th on the grid into a transfer spot late in the race. Johnson grabbed the win, while Nelson, Lund, Fernkes, Hedtko and Sparby also made the cut.

SUMMARY

WISSOTA Super Stocks:

Feature (40 Laps): 1. 7A-Shane Sabraski[4]; 2. 78K-Dexton Koch[2]; 3. 21M-Alex Myers[8]; 4. 9-Dylan Kromschroeder[11]; 5. 1M-Curt Myers[3]; 6. 11A-Jordan Henkemeyer[6]; 7. 9K-Kolby Kiehl[12]; 8. 71X-Travis Scott[13]; 9. 17-Ryan Kostreba[17]; 10. 2-Denis Czech[9]; 11. 46-Dustin Nelson[7]; 12. 25-Dylan Nelson[1]; 13. 28*-Bailey Rosch[14]; 14. 76-Doug Koski[24]; 15. 32-Max Nelson[18]; 16. 54-William Lund[27]; 17. 33N-Austin Niemeyer[19]; 18. 3T-Jon Tribble[20]; 19. **FXR SERIES
OVAL TRACK MECHANICAL
FLAT TAPPET CAMSHAFTS**

Erson's .375 lobe design has a very aggressive intake profile that generates a fast lift rate. The advantage of this design is that it creates more area under the lift curve for improved cylinder filling, producing more horsepower and torque while maintaining reliable performance. FXR camshafts work well with higher rocker arm ratios.

Gullikson earns first-ever WISSOTA 100 victory in the Street Stock finale

By Tony Steuck
All The Dirt! Racing News

FERGUS FALLS, MN (September 13) - Jim Gullikson was firmly in control for most of the 30-lap Championship Feature on Saturday, but surviving a restart with one to go left no doubt he earned the first WISSOTA 100 Street Stock title of his outstanding career.

Gullikson took the green flag from the outside of the front row when the field rumbled three wide to the flagstand for the start. He took off with the lead while Kyle Dykhoff settled into second, and Justin Vogel raced by Kolton Brauer into turn three on the opening lap for third. Parker Anderson challenged Brauer for position ahead of a three-wide battle just outside the top five.

The top three pulled away and Gullikson led by three or four lengths with five laps scored. Vogel picked up the pace and challenged Dykhoff for second with a gap to Brauer in fourth. Anderson, Cole Greseth and Trey Hess battled in a tight group with Brauer; Anderson threw a slide job on lap eight, but Brauer countered the move and remained fourth.

Gullikson had opened a few more car lengths advantage by lap 10, with Vogel still on the trunk of Dykhoff for

Speedway Motors WISSOTA 100 Street Stock Champion
Jim Gullikson

second. Greseth found a lane under Anderson for fifth on lap 11 while Gullikson closed on the tail of the field a few laps later. His lead shrunk slightly as he encountered traffic, while Dykhoff and Vogel had a straightaway gap to fourth. Greseth put heavy pressure on Brauer for the position at the halfway mark, and completed the pass on lap 18, just before Brauer dropped off the pace and brought out the first caution flag with 18 of 30 laps scored.

Vogel started on the inside row for the restart, charged into turn one and slid in front of Gullikson, but Gullikson turned down the banking and

regained the lead on the back chute. Dykhoff pulled even with Vogel and the pair fought side by side before Dykhoff defended the runner-up slot. Greseth held fourth ahead of Anderson and a battle between Hess and Nick Traynor.

Gullikson inched away for a few laps after the restart, but Dykhoff searched the track for speed, and closed ground diving deep into the turns. Dykhoff was within a car length in the corners with five laps to go, but a caution waved and settled down the action with 26 laps recorded.

Gullikson led the pack to green, and Anderson made a move to displace Greseth for

fourth. Dykhoff continued to look to the inside of the leader in the turns with Vogel close behind. Gullikson edged away ever so slightly, and Dykhoff opened ground on Vogel. Gullikson led the field through the white flag, but as he entered turn three for potentially the final time, the caution waved and set up a one-lap dash to the finish.

Dykhoff charged to the inside of Gullikson in turns one and two, while Hess shot to the middle between Anderson and Vogel in a bid for the final podium position. Dykhoff was at the leader's left rear out of turn two; he shot into the final set of corners, nosing ahead ever so slightly into turn four. Gullikson kept his momentum up high and although the pair made a little contact out of the final corner, Gullikson won the drag race to the stripe by

Andrew Hanson (20) & Cody Hatch (9)

less than a car length. The battle for third finished nearly three wide; Vogel held onto the position with Anderson fourth and Hess fifth. Eric Riley finished sixth ahead of Greseth, Traynor, 17th-starter Mike Jans and Tommy Pogones in the top 10.

The final six spots to be determined for the Championship Feature came through a Last Chance Qualifier at the beginning of the night. Coltn Schuler led all the way for the win while Spencer Johnson ran comfortably in second and Cail Tinker had space behind him in third. There was a six-car battle for fourth through the first half of the race; Braedyn Fleck broke away with fourth late in the going, and Derek Zieske brought Dustin Erickson with him into fifth and sixth with a few laps left.

SUMMARY

WISSOTA Street Stocks:

Feature (30 Laps): 1. 21-Jim Gullikson[3]; 2. 11K-Kyle Dykhoff[2]; 3. 10-Justin Vogel[5]; 4. 27P-Parker Anderson[6]; 5. 4T-Trey Hess[7]; 6. 51-Eric Riley[4]; 7. 19G-

Cole Greseth[9]; 8. 40-Nick Traynor[11]; 9. 25-Mike Jans[17]; 10. 04-Tommy Pogones[10]; 11. 11JR-Jeff Ekdahl[21]; 12. 9-Cody Hatch[20]; 13. 16S-Ty Schuler[16]; 14. 814-Cail Tinker[27]; 15. 2U-Kasey Ussatis[19]; 16. 13-Dustin Erickson[30]; 17. 22B-Ethan Beckler[22]; 18. 3-Ken Harmon[31]; 19. 00-Ferlin Sheridan[33]; 20. (DNF) 76-Braedyn Fleck[28]; 21. (DNF) 16A-Coltn Schuler[25]; 22. (DNF) 19H-Hunter Carter[8]; 23. (DNF) 11-Levi Randt[14]; 24. (DNF) 15F-Zachary Flickinger[15]; 25. (DNF) 20-Andrew Hanson[13]; 26. (DNF) 148-Keith Tourville[12]; 27. (DNF) 3C-Cory Dykhoff[24]; 28. (DNF) 34J-Kolton Brauer[1]; 29. (DNF) 71-Josh Long[23]; 30. (DNF) E30-William Fisher[32]; 31. (DNF) 2*-Dustin Schultz[18]; 32. (DNF) 1SJ-Spencer Johnson[26]; 33. (DNF) 19-Derek Zieske[29]

LCQ (15 Laps): 1. 16A-Coltn Schuler[1]; 2. 1SJ-Spencer Johnson[2]; 3. 814-Cail Tinker[8]; 4. 76-Braedyn Fleck[9]; 5. 19-Derek Zieske[4]; 6. 13-Dustin Erickson[7]; 7. 27J-Jordan Johnson[5]; 8. 511-Colsten Schultz[16]; 9. 35S-Kegan Stueve[11]; 10. 44-Dylan Arndt[12]; 11. #1-Tony Smith[13]; 12. 4-Micheal Brockman[15]; 13. 80-Tony Miller[6]; 14. 19K-Cole Kannegiesser[14]; 15.
